

CREATE YOUR OWN EXHIBITION

While you can't visit a museum why don't you make your own from things you have at home. We'd love to see what you do!

You will need:

- Something to display your exhibition in or on – a big cardboard box on its side would be great. You could decorate the box with your exhibition name and logo
- A theme – this could be toys and games, holidays, the seaside, or anything that you want! You could have a series of exhibitions on different themes over the next few weeks
- A collection of around 6 items - this will depend on the size of your display case
- A label to go with each item in your exhibition – this will tell your visitors all about the things on display. Good things to write are: how old it is, where it came from, what it does and why you chose it

Tips:

- Have a look at some of the online museums that are available – lots of places are doing virtual tours of their exhibitions - or think about a time you went to a museum and what you saw there. How were things displayed so that you could see everything?
- Could you make a quiz to go with your exhibition?
- Create a tour of your display and show your family round – record it and send it to us and we might show it on our Facebook page!
